Piece A - Main Body of the Wallet

A  
Cut 2

B  
Cut 1

Fold 1/4" twice to hem the edit  
Dont sew until you place the Credit card slots

C

Cut 1

Using newspaper  
or tissue paper  
Cut this 25 1/4" Long

D  
Cut 1

E

F  
Cut 2

# Inventory List

Main Body of bag

Zipper pocket

Inside left slip pocket

Under card slot piece

Pen loop

1 zipper 9" or longer

D piece, Fold in an accodian style pressing as you go with Iron

Fold at these measurements but adjust some fineseing might be in order to make it look even

2", 3 3/4", 6 1/2", 8 1/4", 11", 13", 15 1/2", 17 1/4"

\* Be mindful of pattern directions when cutting your fabric, and how they will be place on the bag  
If you have a directional fabric make sure its going in the direction you want it too when the product is finished

## Prepping and Ironing

Press the Folds in an accordion style, you can use my measurements or use a business card to measure each fold as you iron along

\*Optional, you can leave the folds as is or you can do a top stitch at the top of each card slot

Fold the E piece in half, sew along the one side  
turn piece right sides out and press  
top stitch down each side 2mm away from the edge

B & C

piece C fold in 1/4" and then 1/2" and press, this will hold the cardslot piece in

\*Be aware of the direction of the fabric, i am making this with the cardslots on the left side of the bag so the hem will be on the right side of C

Layer the fabrics with C piece right sides down, B piece right sides up and placed on top lining on the left sides, Card slot piece onto lining up the left sides

The hem should cover the pieces and if they dont re fold the hem on piece C

Sew very close to the edge of the hem to secure all the pieces together

## Installing Zipper

Lay one of the A pieces down with the right sides facing up, lay the zipper zip down on the right side of A lining up the edge, place 1 F piece on top with the right sides facing down lining up the right side

Hold in place, use a zipper foot to get a nice seam

Sew 1/4" down the on side of the zipper

flip the piece right sides out, pulling the lining fabric tight fold in the top fabric in so the fabric touches the teeth.

Use your zipper foot to get very close to the teeth

This will give your bag a finished and professional look

doing the same as before, lay the main fabric right sides down, place the piece Zip side down lining up the right edge  
Place lining of the bag rightsides down on top

sew along the edge to secure the zipper  
Flip and top stitch like before

This is how it should look, the lining fabric should be right sides down

\*\*If it looks like this your on the right track!

Take the main piece and put it right sides together matching the fabrics, fold back the main body fabric as shown and place the finished card slot piece on the left side as shown, then fold the pen loop and pin into the appropriate place

fold the fabric back over, Sew around the entire piece leaving a 4" hole at the bottom of the zipper pouch (this will be used for turning)

when sewing over the zippers be sure to fold the zipper in half as shown

When sewing over the other side unzip the zipper so the zipper is contained inside the piece and then sew over top of the zipper folding it as done before.

when turning the back right side out you will need the zipper to be unzipped to fully turn the bag right sides out

\* Keep in mind there is a full tutorial showing you how to do this at [www.youtube.com/charmedbyashley](http://www.youtube.com/charmedbyashley)

Be sure to snip off excess zipper or pen loop fabric before turning, snip off the corners of the bag to reduce bulk

Turn entire bag, unzip the zipper more if needed

Pull the lining out and top stitch the lining closed
